

OPENING A CLIMBING GYM

Builder's Risk Policy

Have this in place during the construction process from start to finish. Make sure either your General Contractor has a Builder's Risk policy, or you have your own.

Have a conversation about your Business Personal Property, and which policy it can be placed on as you start to have shipments arrive at your gym.

Property Policy

Have this in place before the Certificate of Occupancy is issued or before the Builder's Risk Policy expires, whichever occurs first.

Commercial General Liability Policy

Have this in place before you are open and operating, or before you do any tours of the gym prior to opening.

Worker's Compensation Policy

Have this in place before your first employee's first day of work.

Checklist of Processes & Procedures

- Employee Handbook
- Operational Procedures
 - Liability Waiver
- Emergency Protocols - Employee Injury
- Emergency Protocols - Participant Injury
 - Light Duty Return to Work Plan

Granite Insurance can be a key resource in your creation of these documents! Let us know when you're ready to start working on them.

Opening

Climb on, and hit all your goals for your first year while Granite Insurance supports you along the way!
